COMMONWEALTH BUREAU OF CENSUS AND STATISTICS WESTERN AUSTRALIAN OFFICE

Quarterly Statistical Abstract

(The figures published in this Abstract are where necessary revised every quarter. Those which appear in this issue consequently supersede any contained in previous issues.)

No. 413

DECEMBER 1969

F. W. SAYER

DEPUTY COMMONWEALTH STATISTICIAN
AND GOVERNMENT STATISTICIAN

By Authority: ALEX B. DAVIES, Government Printer

1969

NOTES

Rounding of Figures. Many of the figures appearing in the tables have been rounded (to thousands or, in some cases, millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

Population and Vital Statistics. Estimates of the population of Australia (and of States and Territories) are prepared quarterly by the Commonwealth Statistician, Canberra. The estimated population in each State or Territory represents the population ascertained at the 1966 Census plus recorded natural increase and recorded net gain from overseas migration for that State or Territory; gains and corresponding losses that result from movements between States and Territories are also taken into account in so far as they are recorded as transfers of State of residence under child endowment procedures or Commonwealth electoral procedures supplemented by results of any special count or sample survey. Holiday, business or other similar short-term movements between States and Territories are omitted. As records of migration by State or Territory are not complete, the estimated State and Territory populations so derived are approximate and are subject to revision when the actual population of each State is ascertained at the 1971 Census. Rates of birth, death, marriage and natural increase which are based on these populations are similarly subject to revision.

Before an amendment to the Australian Constitution in 1967, it was provided by section 127 that 'in reckoning the numbers of the people of the Commonwealth, or of a State or other part of the Commonwealth, aboriginal natives shall not be counted '. This provision was deleted following a referendum held on 27 May 1967 which resulted in a large majority of votes in favour of its repeal. The enabling Act, the Constitution Alteration (Aboriginals) 1967, came into operation on 10 August 1967.

The population estimates appearing in Table 1 refer to total population, *i.e.* including Aborigines. Vital statistics, which until 31 December 1966 excluded births, deaths and marriages of full-blood Aborigines, include events among the total population for periods subsequent to that date. The term 'full-blood Aborigines', as used in relation to these statistics, is to be understood to mean persons with more than one-half Aboriginal blood.

External Trade. From 1 July 1965, when a new Australian Customs Tariff was introduced, imports have been classified according to an Australian Import Commodity Classification based on the United Nations Standard International Trade Classification, Revised. From 1 July 1966, an Australian Export Commodity Classification, also based on the Standard International Trade Classification, was adopted in the tabulation of export information.

The Standard International Trade Classification follows closely the 'Brussels' tariff nomenclature used in the new Australian Customs Tariff. The Standard International Trade Classification consists of 10 broad commodity categories designated 'Sections' and comprising 56 commodity 'Divisions' which are further divided into 177 commodity 'Groups'. The structure of the classification serves to provide a summary of data relating to 1,312 basic items of international trade. The Sections, Divisions and Groups, and the relevant reference numbers, are shown in Table 23. The first digit of the reference number denotes the Section; the first two digits, the Division; and three digits, the Group. In some cases the descriptions of commodity Divisions and Groups are abbreviations of the full text, which is available in the Australian Import Commodity Classification and the Australian Export Commodity Classification issued by the Commonwealth Bureau of Census and Statistics, Canberra.

Employment Estimates. The employment estimates shown on page 37 in this publication are not directly comparable with statistics derived from the 1966 Population Census, for which new work force definitions were adopted. Revised estimates for each month from June 1966 to March 1969 were published by the Commonwealth Statistician, Canberra in a special bulletin issued on 5 September 1969. This new series is based on 1966 Census benchmarks and is therefore at a higher level than the series on page 37. In due course the estimates for periods prior to the Census of June 1966 will be revised, but on a basis comparable with that of the 1961 Census benchmarks, the information needed to revise these benchmarks on the 1966 Census basis not being available. The series on page 37 will not be continued beyond February 1969.

Finance Companies. The summary of the principal statistics of the lending operations of corporate finance companies, shown in Tables 58-61, covers the operations of companies engaged mainly in providing certain credit facilities to the general public (companies and persons). Banks, insurance companies, etc. and companies providing credit to 'related companies' are excluded.

The outstanding balance for a particular period cannot be verified by the addition of the amount financed to the previous month's outstanding balance, less collections and other liquidations for the period under review, owing to the amount financed being a 'net figure', i.e. it excludes interest, insurance and hiring charges.

Additional information on this subject is available in the mimeographed publications *Finance Companies* issued monthly and annually by the Commonwealth Statistician, Canberra.

STATISTICS OF WESTERN AUSTRALIA

I-POPULATION AND VITAL STATISTICS

NOTE. Estimates of population and rates of birth, death, marriage and natural increase for dates and periods subsequent to the Census of 30 June 1966 are subject to revision after the 1971 Census.

A line drawn across a column between the figures, as in Tables 2 and 3, indicates a break in continuity in the series; see note *Population and Vital Statistics* on page 2.

(a) Figures for 1966-67 and 1967-68 are not comparable with previous years due to the exclusion of non-cargo vessels and cargo vessels of less than 200 gross tons. (b) Figures for Useless Loop not recorded prior to 1967-68.

No. 19-Principal Items of Cargo (Overseas, Interstate and Intrastate) Shipped at each Port

The information in this table is obtained from data supplied by the Fremantle Port Authority; the Albany Port Authority; the Bunbury Port Authority; the Harbour and Light Department; and private operators in respect of Barrow Island, Cape Cuvier, Dampier, Exmouth, Useless Loop and Yampi.

⁽a) Most cargoes are recorded in terms of the ton weight of 2,240 lb but some cargo, consisting mainly of bulky commodities, is recorded on the basis of the ton measurement, a unit equivalent to 40 cubic feet of space. Statistics are compiled accordingly in terms of 'tons weight' or 'tons measurement'. In order to provide a ready comparison, as in this table, of the volume of eargo handled at the several ports or in different periods, the amounts recorded in the two categories have been aggregated. In Table 21 details of cargo handled at each port are presented separately on the basis of 'tons weight' and 'tons measurement'. (b) Buoyed sea terminal. (c) Less than 500 tons. (d) Includes Useless Loop. (e) Includes Cape Cuvier and Useless Loop. * Revised.

(a) Comprises free homestead farms and reserves. (b) Comprises perpetual leases, leases of reserves and leases of town and suburban lots.

VI-PRODUCTION

No. 30-Estimated Net Value of Production

Net Value of Production is the sum available for payment of wages, interest, rent, depreciation, other overhead costs, and for the producer's own income and profit. For Primary Production it is obtained by deducting from the value realised at the principal market all marketing costs and the cost of goods used in production (seed, fertiliser, pickling, sprays, dips, fodder, fuel and oil, etc.). For Manufacturing, it is obtained by deducting from the selling value at the factory door the cost of goods consumed in the process of production (i.e. materials used, fuel, power and light, labricating oil and water, repairs to plant and buildings, tools replaced and containers and packing).

Year	Agri- culture	Pastoral	Dairying	Poultry farming	Bee	Trapping	Forestry	Fishing and whaling	Mining and quarry- ing	Total Primary	Manu- factur- ing

n.a. denotes 'not available'.

n.a. denotes 'not available'.

(a) Not available for publication.

(b) Details not published by the Department of Mines; particulars of alumina are shown above.

(c) Less than \$500.

(d) Comprises gold refined at the Mint and gold contained in gold-bearing materials exported.

(e) Includes payments by Gold Producers' Association Ltd. but excludes Commonwealth net subsidy paid to gold producers.

(f) Comprises pig-iron produced from ore smelted at Wundowie.

(g) Comprises ore for smelting at Kwinana and for export interstate.

(h) Comprises overseas and interstate exports excluding exports from Kwinana: see also footnote (g).

(i) Estimated nominal f.o.b. value based on the price of fickel cathodes as published from time to time in the publication Metals Week.

(j) Quantity of crude oil sold. The value is based on the price of \$US3.58 a barrel at Kwinana, as assessed by the Tariff Board for Barrow Island crude oil.

(k) Includes building stone, glass sand, clays and limestone as reported to the Department of Mines. As some production on privately-owned land is not reported, Department of Mines records for these commodities are incomplete.

(l) Excludes the value of bauxite.

VIII—LIVESTOCK AND WOOL PRODUCTION

No. 32-Number of Livestock and Wool Production

(a) In terms of greasy wool. Comprises shorn wool, dead wool, fellmongered wool and wool exported on skins.
 Up to and including 1965, figures comprise shorn and dead wool for the year ended 31 March, and fellmongered wool and wool exported on skins for the year ended 30 June.
 (b) Not available.
 (c) Preliminary; subject to revision.

⁽a) Some major items of production are not available for publication.

(b) Includes quantities produced and used in own works.

(c) Includes rebuilt batteries.

(d) Excludes sandshoes, rubber thongs and other footwear wholly of rubber.

(e) Includes loaves other than 2 lb size and breat rolls, etc. in terms of 2 lb loaf equivalent.

(f) Not available at time of publication.

(g) Not available. Annual collection only.

(h) Not available for publication.

(j) Includes atta flour and quantities used for making self-raising flour.

(k) Total made—includes losses in distribution, etc.

(l) Excludes solar absorber units.

(m) Includes rubber, plastic foam and sponge.

(n) Excludes suit shorts and swim shorts.

(o) Includes dripping.

(p) Includes plywood veneers and railway sleepers (see separate item above).

(†) Preliminary.

* Revised.

(a) Figures are shown to one decimal place to avoid distortions that would occur in rounding off the index numbers to the nearest whole number. (b) Prices for all items in the index were not collected prior to July 1968 and imputation was necessary in a number of cases. Consequently, movements shown by index numbers prior to July 1968 include movements of imputed price series. (c) Includes the groups Electrical installation materials and Mechanical services components. The whole of the former group and the majority of the items in the latter group are based on Sydney and Melbourne price series. (d) Preliminary figures; subject to revision.

No. 44-State Basic Wage: Adult Weekly Rates

(\$)

Date of operation		Males Fe		Date of operation	Males	Females	
	22 September 26 October	30.80 31.12	23.10 23.34	1966—25 January 2 May 2 August 24 October (a)		32.38 32.65 33.26 33.50	24.28 24.49 24.95 25.13
	26 April 26 July 16 November	31.47 31.78 31.96	23.60 23.84 23.97	1968—22 November (b) 1969—24 November		35.45 36·45	27.08 27.88

⁽a) The rates shown are those which applied until a decision of The Western Australian Industrial Commission dated 27 June 1967. The terms of this decision were that the minimum weekly wage payable to adult male workers under certain awards be increased from \$36.55 to \$37.55; 'that the wage rates for adult workers not in receipt of the "minimum wage" be increased by 60 cents per week; and that other wage rates be adjusted as if the basic wage for males and the basic wage for females had been increased by that amount. These increases were declared to operate from the beginning of the first pay-period commencing on or after 1 July 1967. A further increase of \$1.35 a week for adult males and adult females was granted by the Industrial Commission in October 1968 to operate from the beginning of the first pay-period commencing on or after 25 October 1968.

(b) Rates prescribed under the provisions of the Industrial Arbitration Act Amendment Act, 1968.

Date of operation (b)	11 July 1966	1 July 1967	25 October 1968	19 December 1969
Minimum weekly rate	36.55	37.55	38.90	42.40

(a) In its decision of 8 July 1966 in the Basic Wage, Margins and Total Wages Cases of 1966, the Commonwealth Conciliation and Arbitration Commission announced that it intended to grant relief to low wage earners by inserting a provision in awards prescribing a minimum wage. The provisions inserted in the awards state that no adult male employee shall be paid at less than the prescribed minimum rates as ordinary rates of pay in respect of the ordinary hours of work prescribed in the award. The minimum weekly wage rates prescribed were the appropriate basic wages plus \$3.75 a week.

(b) Rates operative from the beginning of the first pay-period commencing on or after the date shown.

No. 46-Weighted Average Minimum Weekly Wage Rates

NOTE. The minimum wage rates and index numbers in the following table embrace a representative range of occupations and are based on the occupation and industry structures in 1954. The wage rates shown in the table and used in the compilation of the indexes are the lowest rates payable for a full week's work (excluding overtime), as prescribed in representative industrial awards, determinations, and agreements. The rural industries are excluded from the table.

The wage rates shown should not be regarded as actual current averages, but as indexes expressed in money terms, indicative of trends.

A more detailed description of the Minimum Wage Rate Index and tables giving figures for additional dates are published in the mimeographed statement Minimum Wage Rates issued by the Commonwealth Statistician, Canberra.

967-68	 		60.90	63.80	60.80	64.30	62.50
1968-69	 		64.70	68.50	65.60	69.40	67.20

⁽a) Based on employment and salaries and wages recorded on Pay-roll Tax returns and from other direct collections and estimates. Particulars of wages and salaries paid are not available for males and females separately from the sources mentioned and average weekly earnings have therefore been calculated in terms of 'male units'. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings in Australia. 'Earnings' include salaries, wages at award rates, overtime earnings and over-award and bonus payments.

NOTE. Quarterly figures are affected by seasonal influences. Comparisons as to trend are therefore best made by relating complete years or corresponding quarters.

No. 48—Wage and Salary Earners in Civilian Employment (a) (Excludes employees in rural industry and private domestic service, and defence forces)

XIV—BUILDING

NOTE. Building statistics are compiled from:

- (a) building permits issued by local government authorities in respect of areas subject to building control, and
- (b) contracts let, work commenced or work authorised by government, semi-government and local government authorities.

Building is classified as 'Private' or 'Government' according to ownership at date of commencement. Thus 'Government' includes buildings erected for Commonwealth and State Governments, semi-government and local government authorities either by contractors or by day labour, whether these buildings are for their own use, for rental, or for sale after completion. Buildings erected for private ownership, or which are financed or supervised by government authorities but erected for praticular persons, are classified as 'Private'.

Prior to 1 July 1966, additions of \$10,000 or more to buildings other than houses were classified as 'new' buildings. From 1 July 1966, alterations and/or additions of \$10,000 or more to existing buildings of all types are included as 'new' buildings. The total value of alterations and additions of less than \$10,000 is shown separately.

The value of land on which the projected buildings are to be erected is not included in the values shown.

⁽a) See note Finance Companies on page 2. (b) Excludes hiring and other charges, interest, insurance and initial deposits. (c) Included in figures in Table 57. (d) Includes hiring and other charges, interest and insurance. (e) Comprises bad debts written off, and rebates for early payouts.

XVII-MOTOR VEHICLE REGISTRATIONS

In Western Australia there is no single authority responsible for the licensing of vehicles. The Traffic Branch of the Police Department licenses vehicles in the Metropolitan Traffic Area as defined in Regulations made under the *Traffic Act, 1919–1969*. Outside the Metropolitan Traffic Area each local government authority is responsible for the licensing of vehicles in its own district. (From January 1969 the licensing of vehicles in the Shires of Broome and West Kimberley became the responsibility of the Police Department under the provisions of the *Traffic Act Amendment Act, 1967.*)

(a) As constituted under the Traffic Act and Regulations. The Metropolitan Traffic Area was enlarged, with effect from 1 October 1966, to include the whole of the Shire of Armadale-Kelmscott instead of, as formerly, only part of the Shire. (b) Includes Commonwealth-owned vehicles (other than those of the defence services) listed with the Commonwealth Motor Vehicle Registry, Canberra. At 31 March 1969 there were in Western Australia 2,144 such vehicles comprising 202 motor cars, 366 station wagons, 552 utilities, 412 panel vans, 556 trucks, 20 omnibuses and 36 motor cycles. (c) Current statistics as well as annual statistics back to 1945, are also available for the Perth Statistical Division. At 31 March 1969 there were 256,035 motor vehicles on register in the Perth Statistical Division. They comprised 167,202 motor cars, 37,217 station wagons, 44,520 utilities, vans, trucks, and omnibuses, and 7,096 motor cycles and motor scooters. (d) Census figures, 31 December. (e) Comprises 227,666 cars, 53,792 station wagons, 45,463 utilities, 14,588 panel vans, 34,078 trucks, 2033 omnibuses (Including 50 trolley-buses) and 10,235 motor cycles and motor scooters.
